2018 Report / UBE Machinery Inc Assembly Facility Opening Ceremony (D-Bay Expansion Completion)

On October 25, 2018, an Opening Ceremony was celebrated in commemoration of the completion of factory expansion work at UBE Machinery Inc. (UMI), our affiliated company in North America.

Our Opening Ceremony included nearly 100 visitors including customers, state and municipal officials, architects, suppliers, members of the press and stakeholders.

This expansion allows UMI an established system to double our product and services such as assembly of large injection molding machines exceeding 3000t and rebuilding of die casting machines.

By doing so, we continue to work together as a group to provide products and services that meet the needs of our customers and enhance our presence in the North American market.

Our rebuild business involves temporarily relocating machinery to our facility, reconditioning, overhauling, adjusting and returning to original condition.
